

January 1999

The President has her say

Welcome to this the last year before the new 20th century. The weather whilst sometimes very hot has been typically Mediterranean Adelaide. I was watching the Tour Down Under and one competitor was heard to say that it was almost perfect. We are indeed very lucky to live in such a wonderful country. On January 15th your executive met for a full day of planning for the coming years activities. We hope to see all of you at least once during the year.

I would like to take this opportunity to congratulate the Home Economics students who gained 20's and Merit Certificates in their year 12 studies. Also, their teachers need to be congratulated, for the extra effort, which goes into extending these students. As VET is playing an ever increasing role in our students subject choice, why not drop us a line and let us know of the strategies which you are using in your successful VET course? Can I commend to you the "Eating into the Future" conference, more information inside this issue. As we are increasingly being bombarded by conflicting articles on the state of our student's health I think this will be a very informative conference for all Home Economists.

Hope to see you there
Christina Tassell
